## TRENCANT ESTEREOTIPS MASCULINS

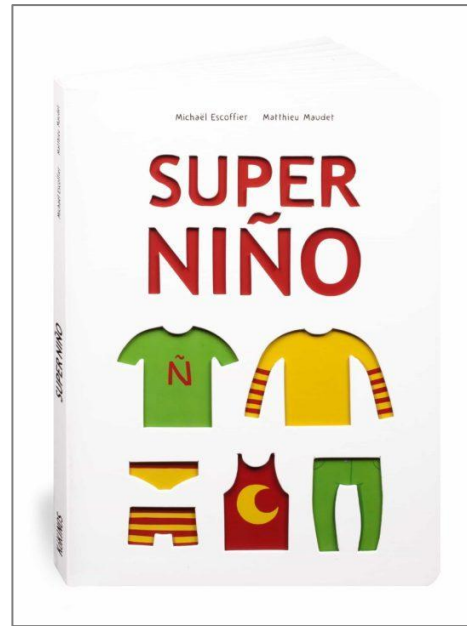

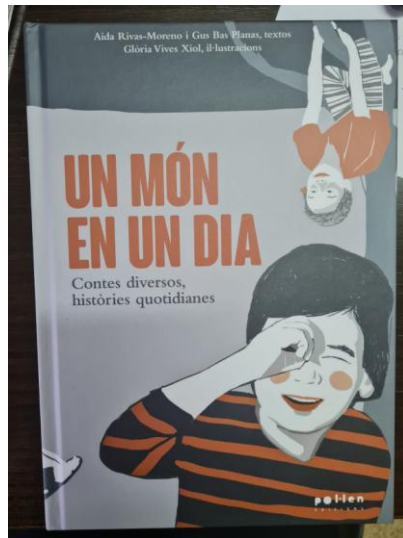

Els contes que tens a les mans estan escrits en la seva majoria sense gènere gramatical perquè puguis identificar els personatges lliurement (excepte en dos contes). La proposta parteix d'una mirada atenta a les limitacions que el gènere suposa al desenvolupament de la infància, i a les desigualtats, les pressions i les exclusions que produeixen les seves etiquetes.

Aran i Odei són noms que s'utilitzen indistintament. On posa Elies pot pensar en Elisa, Elies, Elisabet o simplement Eli, sense haver d'escollir entre femení o masculí. El mateix passa amb Adri i amb Àlex.

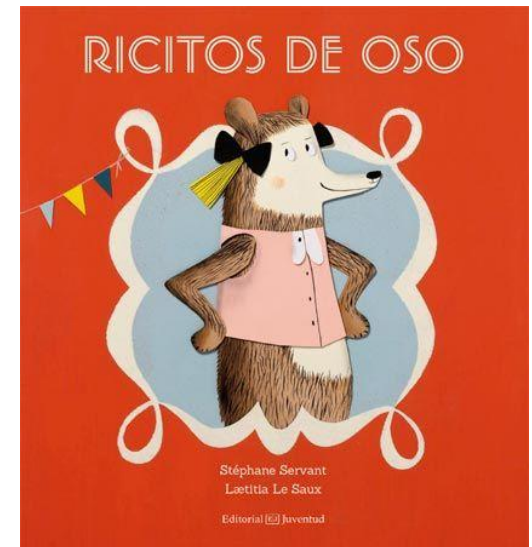

Només dos personatges tenen un nom acompanyat de l'article «la», en català, i amb adjectius en femení:

Ivet i Hasna. Sovint darrere d'un llenguatge gramaticalment neutre imaginem personatges masculins: així és la nostra herència. I per la necessitat de poder imaginar experiències de nenes a les nostres històries hem optat per introduir el gènere gramatical femení en aquests dos contes. Esperem que el joc del llenguatge continuï amb qui llegeixi aquest llibre, és a dir, amb tu.

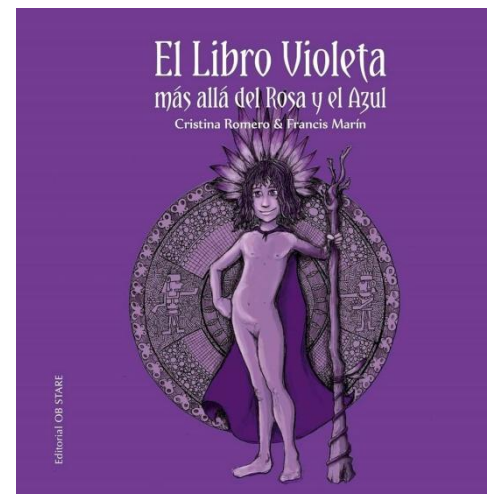

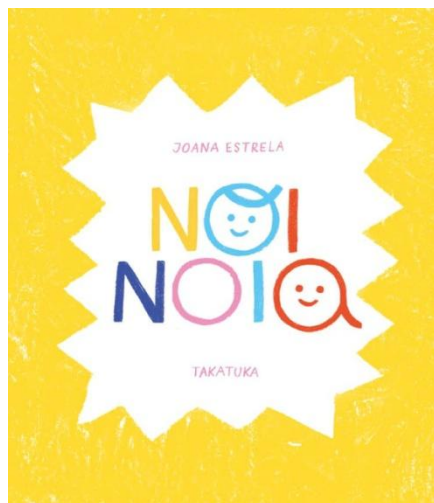

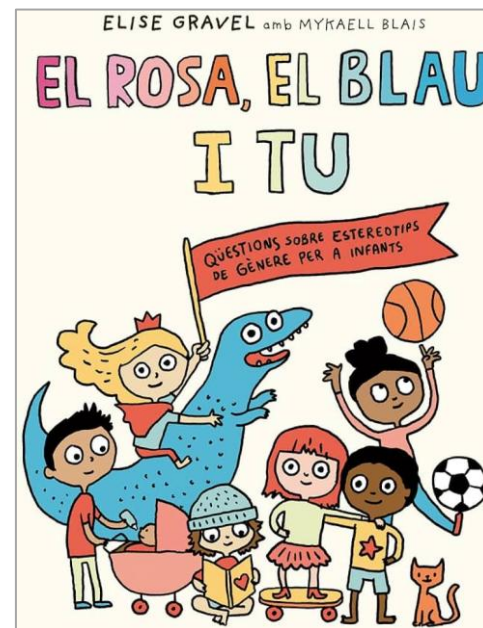

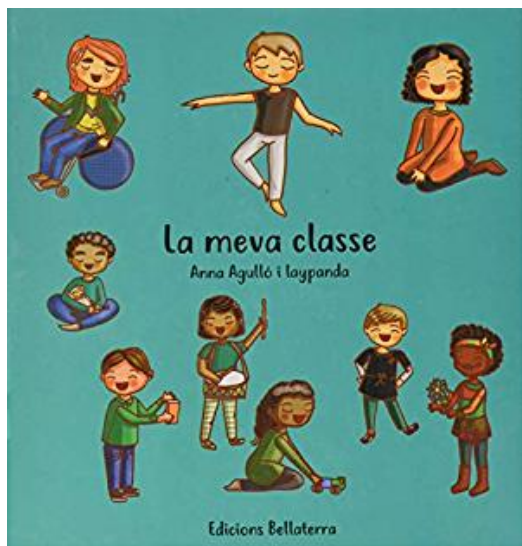

A les teves mans deixem les nostres històries perquè tu puguis escriure les teves.

# REPENSANT LES FESTES TRADICIONALS

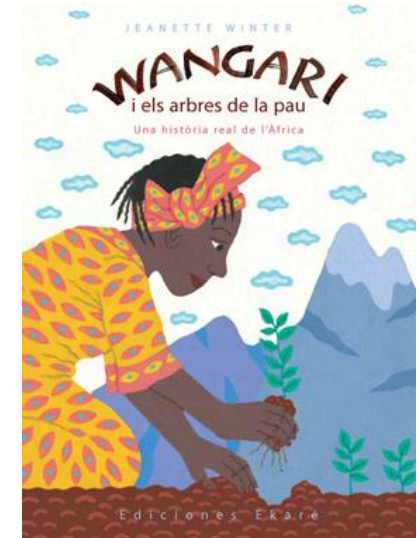

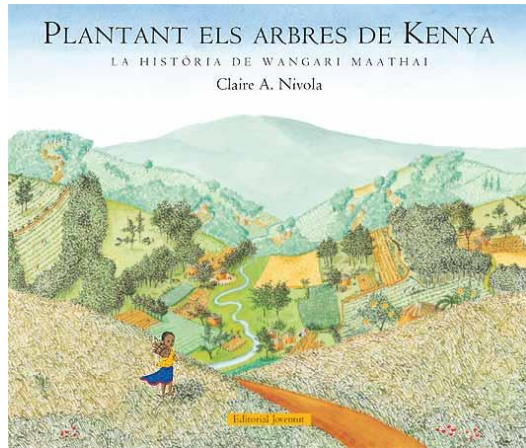

Per Tots Sants? Donar significat diferent a Halloween? No des de la por... Entendre la mort com una part imprescindible del cicle de la vida, no dissociat. Morir és una de les lleis sagrades de la naturalesa. La mort com a cicle, no el fi.
